

std::exception

```
classDiagram
    original::noElementError --|> std::exception
```

The diagram shows two class boxes. The top box, 'std::exception', is white with a black border and is divided into three horizontal sections. The bottom section is empty. The middle section is empty. The top section contains the text 'std::exception'. The bottom box, 'original::noElementError', is gray with a black border and is divided into three horizontal sections. The top section contains the text 'original::noElementError'. The middle section is empty. The bottom section contains the text '+ what()'. A blue arrow with a hollow triangular head points from the top of the 'original::noElementError' box to the bottom of the 'std::exception' box, indicating inheritance.

original::noElementError

+

what()
