

std::exception

```
classDiagram
    class std_exception["std::exception"]
    class original_callback_return_type_error["original::CallbackReturn TypeError"]
    original_callback_return_type_error --|> std_exception
```

The diagram illustrates an inheritance relationship. At the top is a white box representing the 'std::exception' class, divided into three horizontal sections. Below it is a grey box representing the 'original::CallbackReturn TypeError' class, divided into three horizontal sections. A blue arrow with a hollow triangular head points from the top of the grey box to the bottom of the white box, indicating that 'original::CallbackReturn TypeError' inherits from 'std::exception'.

original::CallbackReturn
TypeError
